Collecting Permit Application Directions

1. Fill in all blank spaces. Each person must give their Date-of-Birth and Social Security Number for an Idaho Department of Fish and Game violation check. Also give your middle initial. This clarifies "same name" confusion.
2. Send the application(s) to the Idaho Department of Fish and Game Headquarters office. Your application(s) will be routed to the appropriate Region Office(s) for comments and approval or disapproval. **DO NOT** send the application(s) to the Region offices. After Regional reviews have been complete, the application will be returned to the Boise office for final processing.
3. If you do not know a specific stream name, please give the higher order stream name. For example, if you want to survey streams within Mores Creek drainage but do not know their names or they are unnamed, say „tributaries of Mores Creek“.
4. **ALLOW UP TO SIX WEEKS FOR PROCESSING.** Do not expect the permit to be issued on short notice.
5. A report will be required upon completion of work or upon expiration of a current permit. **No renewal permit will be issued until a current and complete report of work is on file with the Department. Report format and required data will be provided with your permit.**
6. Note: a nonrefundable fee of \$51.75 is now required to process a Scientific Collecting Permit application. Please include a check or money order in the exact amount of \$51.75.

If you have questions, please phone 208-334-3791 or e-mail David Parrish (david.parrish@idfg.idaho.gov) or Theresa Hart (theresa.hart@idfg.idaho.gov).
